

Compact Payment Box

* Coin and chip checker not included

Compact Payment Box

The compact, simple box with built-in MDB interface can be adapted to the user's requirements. The professional accounting interface, for example, can be fitted with a coin, chip, card or key module. It is compatible with all Professional models of the GIGA and IMPRESSA X lines. Messages are shown on the coffee machine's display, while price and product management is performed on the computer.
